Europe

6. Belgium Reference and owner of Hbot facility:
Kris De Pauw member of group • hard monoplane chamber. The ATA for children depends on their age, needs, length , ... chamber's maximum is 2 ATA, but this is too high for children. For adults or big children this is sometimes needed. He treat every disease in facility that benefits HBOT. The only thing needed is a medical examination. His website is in Dutch, not in English.
• A private hyperbaric center in Belgium : OxyVitae : Hogeweg 11 at 9320 Ereembodegem •
Dr. De Pauw, MD : www.oxyvitae.com. +32 468 543 109

<http://www.merciamstherapy.org.uk/therapies/hyperbaric-oxygen-therapy/>

Multi chambers. Children wear hoods. Only do 1.5 ATA and 2.1 ATA.

Lovely, warm, friendly staff.

Costs £23 per session for members or £75 per session for non-members.

They take young children and babies and not only MS sufferers.
